Certification title	Certification number	Earned on	Expires on
GitHub Actions	2EA0A5-A45CDM	Jan 14, 2026	Jan 15, 2028

Passed exams

Exam title	Exam number	Passed date
GitHub Actions	GH-200	Jan 14, 2026

Learning paths completed

N/A means either not all module assessments exist or there is no pass record. All Learning Paths in this table are complete.

Learning path title	Description	Completed on	All module assessment results
GitHub Copilot Fundamentals Part 2 of 2	Empower individual developers and businesses to enhance their productivity and foster innovation through a comprehensive exploration of the fundamental concepts of GitHub Copilot. Additionally, gain valuable insights on how to initiate the implementation of GitHub Copilot within your organization, enabling you to kickstart your own transformative journey.	Sep 2, 2026	N/A

Learning path title	Description	Completed on	All module assessment results
GitHub Copilot Fundamentals - Understand the AI pair programmer	Empower individual developers and businesses to enhance their productivity and foster innovation through a comprehensive exploration of the fundamental concepts of GitHub Copilot. Additionally, gain valuable insights on how to initiate the implementation of GitHub Copilot within your organization, enabling you to kickstart your own transformative journey.	Sep 2, 2026	 All module assessments passed Sep 2, 2026
Automate your workflow with GitHub Actions Part 2 of 2	This is part two of a GitHub Action Learning Path. Learn how GitHub Actions enables you to automate your software development cycle.	Oct 18, 2025	 All module assessments passed Oct 18, 2025
Automate your workflow with GitHub Actions	Learn how GitHub Actions enables you to automate your software development cycle.	Oct 18, 2025	N/A

Modules completed

N/A in the module assessment result column means either the module assessment doesn't exist or there's no pass record for it. All modules in this table are complete.

Module title	Description	Completed on	Duration	Module assessment result
Using GitHub Copilot with Python	Use GitHub Copilot with Visual Studio Code to make changes and updates to a Python application.	Sep 2, 2026	22 min	Module assessment passed Sep 2, 2026
Using GitHub Copilot with JavaScript	Use GitHub Copilot with Visual Studio Code to make changes and updates to a JavaScript application.	Sep 2, 2026	22 min	Module assessment passed Sep 2, 2026
Leveling up code reviews and pull requests with GitHub Copilot	This module shows how GitHub Copilot supports code reviews with actionable suggestions, auto-fixes, and custom guidelines, while Premium Request Units (PRUs) unlock advanced review capabilities.	Sep 2, 2026	38 min	Module assessment passed Sep 2, 2026
Introduction to MCP Server	Learn how to set up and use GitHub MCP Server in Visual Studio Code to extend GitHub Copilot and streamline your AI-assisted development workflow.	Sep 2, 2026	35 min	Module assessment passed Sep 2, 2026
Accelerate development with GitHub Copilot coding agent	This module introduces GitHub Copilot coding agent, showing how it automates routine tasks, manages pull requests, and integrates into your development workflow.	Sep 2, 2026	35 min	N/A

Module title	Description	Completed on	Duration	Module assessment result
Building applications with GitHub Copilot agent mode	GitHub Copilot Agent Mode is an AI-powered coding assistant that works on its own to analyze your entire project, handle tricky coding tasks, improve solutions over time, and help make your software development process faster and more collaborative.	Sep 2, 2026	50 min	Module assessment passed Sep 2, 2026
Develop unit tests using GitHub Copilot tools	This module explores using the GitHub Copilot and GitHub Copilot Chat extensions for Visual Studio Code to create unit tests. Unit test projects are used to verify that the unit tests build and run successfully.	Sep 2, 2026	1 hr 8 min	Module assessment passed Sep 2, 2026
Developer use cases for AI with GitHub Copilot	Developer Use Cases for AI with GitHub Copilot explores ways developers can leverage AI using GitHub Copilot to enhance productivity, ultimately enabling teams to save time, improve code quality, and boost developer satisfaction.	Sep 2, 2026	49 min	Module assessment passed Sep 2, 2026

Module title	Description	Completed on	Duration	Module assessment result
Management and Customization Considerations with GitHub Copilot	Management and customization control are a vital part of utilizing an AI pair programming tool. With a better understanding of GitHub Copilot's various plans and their associated features you're able to select the right fit for your organization's needs.	Sep 2, 2026	30 min	Module assessment passed Sep 2, 2026
GitHub Copilot Across Environments: IDE, Chat, and Command Line Techniques	GitHub Copilot Across Environments: IDE, Chat, and Command Line Techniques explores the versatile integration of GitHub's AI-powered coding assistance. It covers effective use of Copilot's auto-suggestions and multiple panes in IDEs, using natural language interactions in Copilot Chat, and streamlining command-line workflows. The guide delves into optimizing prompts, understanding context-aware code generation, and customizing Copilot's behavior across different coding environments.	Sep 2, 2026	53 min	Module assessment passed Sep 2, 2026
Using GitHub Copilot with Python	Use advanced features of GitHub Copilot with Visual Studio Code to make changes and updates to a Python application.	Sep 2, 2026	22 min	Module assessment passed Sep 2, 2026

Module title	Description	Completed on	Duration	Module assessment result
Introduction to Copilot Spaces	Learn how to use GitHub Copilot Spaces to get context-aware, reliable answers, configure custom instructions, and optimize interactions for repositories, issues, and pull requests.	Sep 2, 2026	31 min	Module assessment passed Sep 2, 2026
Introduction to prompt engineering with GitHub Copilot	This module highlights the basic core principles of prompt engineering and explains the best practices to create prompts quickly and effectively in GitHub Copilot. Learn the strategies that transform comments into precise code, identify the steps within GitHub Copilot's prompt processing flow, and gain an understanding of the important role that Large Language Models (LLMs) play in enhancing suggestion quality.	Sep 2, 2026	30 min	Module assessment passed Sep 2, 2026
Responsible AI with GitHub Copilot	This module explores the responsible use of AI in the context of GitHub Copilot, a generative AI tool for developers. It will equip you with the knowledge and skills to leverage Copilot effectively while mitigating potential ethical and operational risks associated with AI usage.	Sep 2, 2026	15 min	Module assessment passed Sep 2, 2026

Module title	Description	Completed on	Duration	Module assessment result
Introduction to GitHub Copilot	GitHub Copilot is an AI pair programmer that offers autocomplete-style suggestions as you code.	Sep 2, 2026	19 min	Module assessment passed Sep 2, 2026
Manage GitHub Actions in the enterprise	Learn how to manage GitHub Actions in the enterprise.	Oct 18, 2025	1 hr 11 min	Module assessment passed Oct 18, 2025
Create and publish custom GitHub actions	Learn how to create and publish custom GitHub actions.	Oct 18, 2025	26 min	Module assessment passed Oct 18, 2025
Leverage GitHub Actions to publish to GitHub Packages	Publish automatically and secure your code libraries or Docker images with GitHub Packages.	Oct 18, 2025	41 min	Module assessment passed Oct 18, 2025
Automate GitHub by using GitHub Script	Learn to interact with the GitHub API from GitHub Actions by using GitHub Script.	Oct 18, 2025	25 min	Module assessment passed Oct 18, 2025
Build and deploy applications to Azure by using GitHub Actions	Create two deployment workflows using GitHub Actions and Microsoft Azure.	Oct 18, 2025	59 min	N/A

Module title	Description	Completed on	Duration	Module assessment result
Introduction to GitHub administration	Understand the security and control measures available to GitHub administrators within an organization or enterprise.	Oct 18, 2025	36 min	N/A
Introduction to GitHub	Learn to use key GitHub features, including issues, notifications, branches, commits, and pull requests.	Oct 18, 2025	1 hr 45 min	Module assessment passed Oct 18, 2025
Build continuous integration (CI) workflows by using GitHub Actions	Learn how to create workflows that enable you to use Continuous Integration (CI) for your projects.	Oct 18, 2025	1 hr 21 min	N/A
Automate development tasks by using GitHub Actions	Create a basic GitHub Action and use that action in a workflow.	Oct 18, 2025	56 min	Module assessment passed Oct 18, 2025
