Profile Summary

Motivated and detail-oriented graduate with a **B.Tech in Artificial Intelligence and Data Science (2020–2024)** from **Bannari Amman Institute of Technology**. Possess a strong foundation in **programming (Python, C++)**, along with **basic knowledge of Machine Learning** and **foundational expertise in Amazon Web Services (AWS) and its implementation**. Demonstrated ability to analyze problems, write efficient code, and apply core concepts of AI and Data Science in practical scenarios. Enthusiastic about leveraging cloud technologies, data-driven solutions, and programming skills to contribute effectively in innovative projects and continuously enhance technical proficiency.

Education

- **B.Tech – Artificial Intelligence & Data Science**
Bannari Amman Institute of Technology, 2020–2024
CGPA: **8.34**
- **Higher Secondary (Class 12)**
SRV Higher Secondary School
Marks: **517 / 600**
- **Secondary (Class 10)**
Malco Vidyalaya Matriculation School
Marks: **463 / 500**

Projects

Stock Price Prediction – Machine Learning Model

- Developed and trained a **Stock Price Prediction Model** using **Linear Regression** to forecast stock market trends.
- Data was sourced from **Yahoo Finance**, ensuring real-world applicability and accurate financial datasets.
- Designed and deployed an **interactive frontend using Streamlit**, enabling users to input stock symbols and visualize predictions seamlessly.
- Leveraged **Python frameworks and libraries** such as:
 - **NumPy & Pandas** for data processing and analysis.
 - **Scikit-Learn** for implementing and training the regression model.
 - **Streamlit** for building an intuitive user interface.
- Successfully integrated data preprocessing, model training, and visualization into a streamlined workflow, showcasing practical implementation of **Machine Learning in Finance**.

Work Experience

Associate Software Engineer – Accenture Solutions Pvt. Ltd., Chennai

September 2024 – Present

- Completed onboarding training in **Amazon Web Services (AWS)**, **Python**, and **Structured Query Language (SQL)** with a focus on **Cloud and Data Engineering**.
- Trained specifically in the **AWS stream**, gaining foundational and practical expertise in cloud services, deployment, and data management.
- Worked on **AWS Migration Services** and **Amazon Redshift**, contributing to cloud data migration and data warehousing solutions.
- Regularly practice **problem-solving on LeetCode**, enhancing logical reasoning and improving skills in **Data Structures and Algorithms (DSA)**.
- Proficient in solving coding challenges using **Python** and **C++**, demonstrating adaptability across programming languages.
- Applied analytical and technical skills to support migration projects, ensuring secure, scalable, and cost-optimized solutions on AWS.
